Objective:

To continue to expand on my skills as an Oracle RAC Specialist, IT Project Leader and Systems Analyst. I am especially interested in High Availability database solutions, GIS and large database performance tuning.

Highlights:

- 9 years Oracle experience (DBA and Application Support/Development)
- 7 years I.T. Management/Project Leader experience
- 8 years application development and database experience
- 8+ additional years experience in an entrepreneurial/management role (non-I.T.)
- Oracle 10g and 9i RAC DBA experience
 - RAC, RMAN, EMC SAN Storage, DataGuard, Streams, Advanced Replication
 - DWH and Partitioning, SQL/Application Tuning on large databases (>500 GB)
 - Strong SQL, DBA & relational database design skills.
- Oracle 8i OCP certification (PL/SQL & Database Administration)
 - Oracle 8i Spatial application development experience
- Experienced GIS application developer/system integrator
 - ESRI ArcSDE Oracle 9i database support
 - ESRI SDE support and development
 - AutoCAD Map
 - Oracle Spatial
 - Autodesk MapGuide
 - ESRI ArcView, ArcInfo, ArcGis
 - U of M MapServer
 - OpenGL development of GIS based webserver extensions
- Recipient of several awards and bonuses for innovative solutions
- Experience with most modern RDBMS: (Oracle, MySQL, SQL-Server, MS Access, Sybase, DB2, Informix, Progress, etc).
- Dynamic HTML & server side Java database application skills (servlets)
- C/C++, Java, PL/SQL, VB/COM+ skills
- Linux advocate, developer and user since 1997
- Unix/Linux platform development
- AIX, HP-UX, Linux, Solaris and Windows administration
- Network administration and strong TCP/IP understanding, Novell C.N.A certification
- Hardware/Electronics education and experience

Experience:

April 2004 – October 2007

Technical Analyst/Oracle DBA
SaskTel
Regina, SK
<http://www.sasktel.com>

In-Charge of Database Services June 2005 – March 2006
